In H1 2020 SaaS Increased 9% and represented
74% of the total revenue (73% for FY 2019)

STEADY SALES PERFORMANCE
(BOOKINGS)

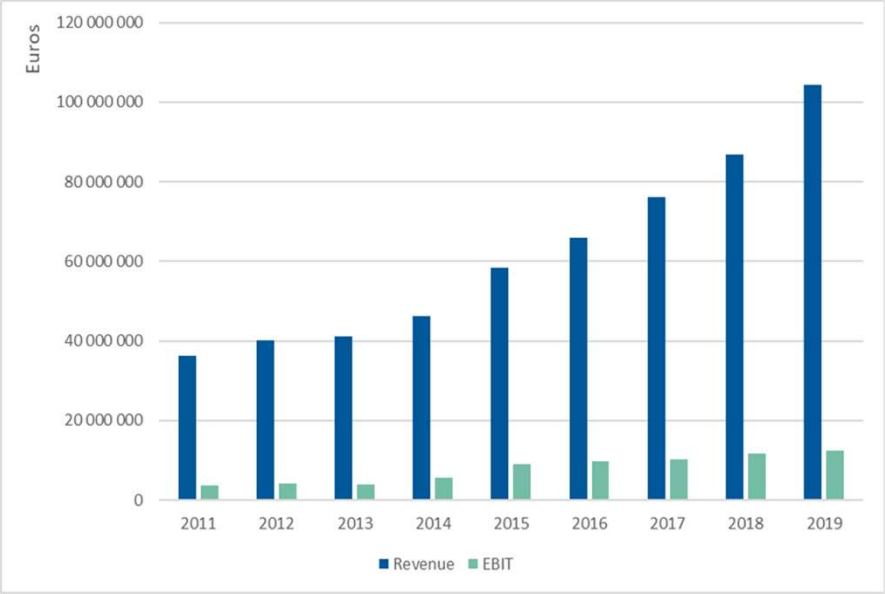
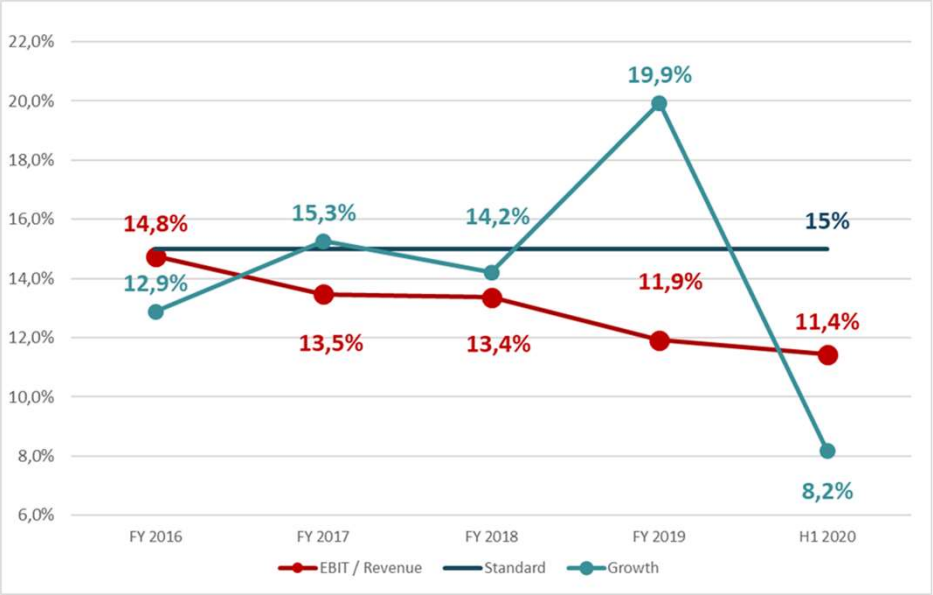
- This represents the guaranteed revenue to Esker for a contract
- Typical contract: 3 years
- Committed value signed in 9M20: +10% vs 9M19
- Will be recognized over the life of the contract
- Acquisition cost (sales & marketing mainly) charged to income statement immediately
- Committed value of contract is estimated to be approximately 50% of total value at contract renewal

BUSINESS MODEL COMBINES PROFITABILITY AND STRONG INVESTMENTS

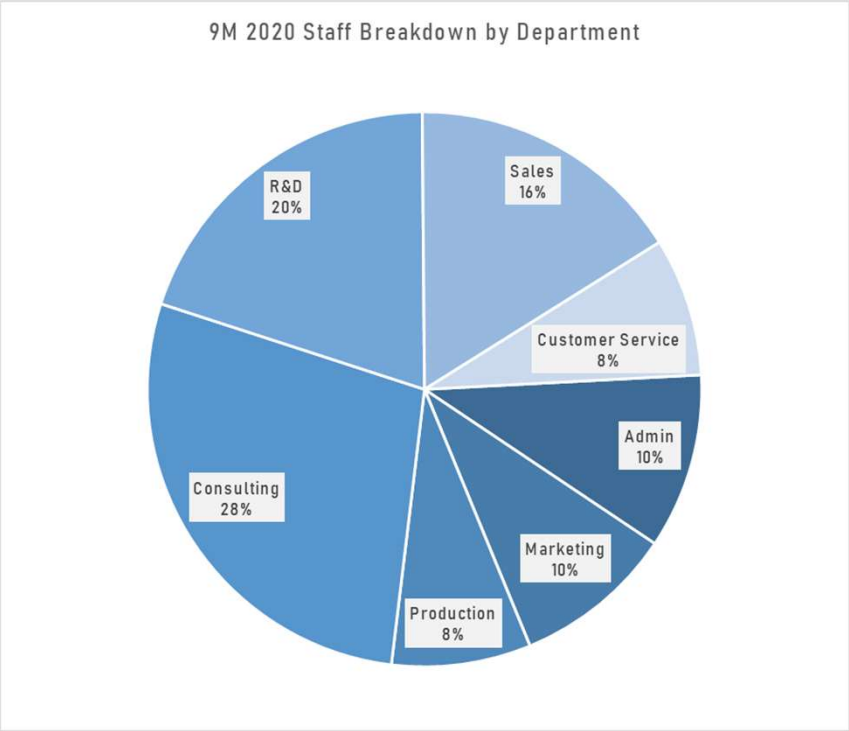


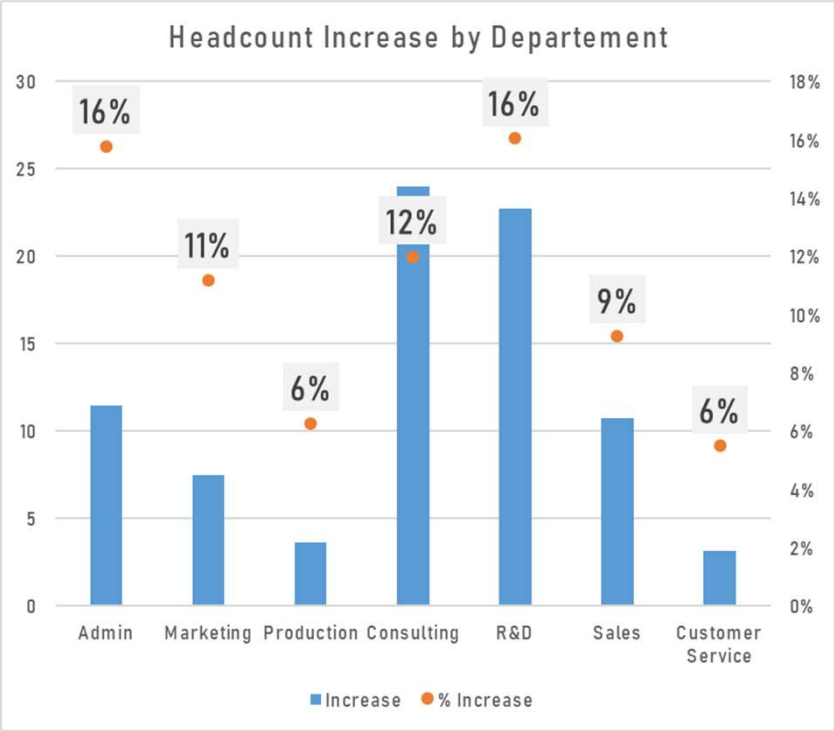


2020 – H1 Operating Income: 11.4%

We aim at 15% EBIT to combine profits and investments for future growth
Profitability remained stable despite COVID impact on revenue

DYNAMIC INVESTMENTS FOR FUTURE GROWTH





Staff @ 9/30/20: 740

9M 2020 – Staff increase:
vs. 9M 2019: +83 FTE (+12%)

COVID-19 IMPACTS

- The variable SaaS traffic has been impacted in Q2 and has recovered slowly since then
- We experienced longer sales cycles in Q2/Q3 but bookings growth remains strong
- Esker Investments were adjusted to be in sync with the revenue to maintain the profitability
