Lyon, October 20, 2005

Extending the Reach of Information

Esker and Chinese / Indonesian conglomerate Lippo Group form a joint venture to market Esker products across Asia

Lippo Group takes 2.9% stake in Esker to show commitment and confidence in Esker products success in Asia

Esker Software Asia Pacific (ESAP) established in Singapore as a foothold to Asia

Esker Software Asia Pacific, a Singapore based corporation, has been founded through a joint venture of Esker Software (49%) and Lippo Group (51%). Lippo Group is a multi-billion dollars conglomerate with over ten thousand employees worldwide with activities ranging from banking and financial services to manufacturing or information technologies.

ESAP will be focusing on marketing and selling Esker's intelligent document delivery solutions on the Asian market, using Singapore as its first operation centre. Thanks to the outstanding presence of the Lippo Group throughout Asia, representations for ESAP in Shanghai, Hong Kong, Indonesia and Malaysia will be opened once the company establishes its initial presence in the Singapore domestic market.

Lippo chooses the leader in SAP document delivery solutions to address the growing needs of companies in Asia

In Asia, and China in particular, companies are accelerating their investments in technology to support the rapid economic growth. Major ERP adoption in Asia, most notably SAP solutions, will further emphasize the need for structured business document management and distribution strategies.

Lippo has been helping companies in Asia deal with their document delivery strategies. "We quickly saw, however, the limitations of the product we were representing in Asia, particularly when dealing with customers running SAP," says Stephen Riady, Deputy Chairman for the Lippo Group. "This was obviously a big problem for us considering that SAP is clearly becoming a dominant leader in the region among ERP vendors. We then decided to conduct our own research and quickly came to the conclusion that Esker is the expert worldwide on this market."

"The establishment of the joint venture is a major step in Esker's growth strategy," says Jean-Michel Berard, founder and CEO of Esker. "Entering the expanding Asian market with a partner of the calibre of Lippo is ideal in terms of market knowledge and credibility in front of our customers. We are convinced that the combination of Esker's technology and Lippo's outstanding presence throughout Asia will make our partnership very successful," concluded Berard.

Lippo shows commitment to the partnership by taking a significant stake in Esker's capital structure

As part of the agreement between the two companies, Lippo now owns 100 000 Esker shares, a 2.9% stake in the company. Through this move, Lippo and Esker demonstrate their willingness to work together in a stable and profitable relationship across Asia. It also exemplifies the confidence and excitement that Lippo has in the success of Esker solutions worldwide.

About Lippo

Lippo Group is a multi-billion dollars asset base and revenue conglomerate with over ten thousand employees. Lippo was founded by its Chairman, Dr. Mochtar Riady over 30 years ago and has offices in China mainland, Hong Kong and Macau; and Australia, Indonesia, Malaysia, Philippines and Singapore.
