

Esker Receives 2014 Cloud Computing Product of the Year Award

Esker's Cloud Platform, Esker on Demand, Honored for Innovation

Madison, WI — December 16, 2014 — [Esker](#), a worldwide leader in [document process automation solutions](#) and pioneer in [cloud computing](#), announced today that [TMC](#), a global, integrated media company, has named [Esker on Demand](#) as a 2014 Cloud Computing Product of the Year Award winner.

The Cloud Computing Product of the Year Award, presented by [Cloud Computing magazine](#), honors vendors with the most innovative, useful, and beneficial cloud products and services that have been brought to market in the past year.

“When it comes to document process automation, cloud technology offers key competitive advantages in terms of IT simplification, scalability and ROI, and accomplishing more with less,” said [Steve Smith](#), U.S. Chief Operating Officer at Esker Americas. “Receiving the Cloud Computing Product of the Year Award from TMC is a great honor, and a testament to the success of Esker on Demand in helping organizations of any size easily achieve these benefits.”

Esker on Demand is a cloud-based document process and information exchange service that enables companies to automate the processing and exchange of critical business documents. Ten years after its launch, Esker on Demand's global network of production facilities now serves over 5,000 customers worldwide, recently eclipsing the impressive milestone of over one billion pages processed.

“Recognizing leaders in the advancement of cloud computing, TMC is proud to announce Esker on Demand as a recipient of the Cloud Computing Product of the Year Award,” said [Rich Tehrani](#), CEO at TMC. “Esker is being honored for their achievement in bringing innovation and excellence to the market, while leveraging the latest technology trends.”

About Esker

Esker is a worldwide leader in document process automation solutions. Addressing all types of business processes, from accounts payable and accounts receivable to order processing and procurement, Esker cloud computing solutions enable companies to automate the reception, processing and sending of any business document with one platform. Esker helps over 80,000 companies around the world to reduce the use of paper and eliminate manual processes while improving their productivity, efficiency and environmental impact.
