

Freudenberg IT Taps Esker Fax Services for SAP for Enhanced Hosting Capability

Madison, WI – January 8, 2013 – [Esker](#), a recognized leader in [document process automation solutions](#) and [SAP](#)® software solution and technology partner, today announced its partnership with [Freudenberg IT](#) (FIT), an SAP-certified global provider of hosting and cloud services, to strengthen the quality of service delivered to its customers using Esker's 100% on-demand [Fax Services for SAP](#) solution.

Connecting in the cloud

The benefits of cloud computing are well known. Esker and FIT customers benefit from the reliability, scalability, flexibility and cost savings of deploying core IT applications via the cloud. Faxing from SAP continues to be a common, critical requirement. By working directly together to connect SAP systems with Esker's certified cloud fax service, FIT is able to meet its customers' requirements with a time tested, turnkey solution that simplifies deployment and reduces the costs of maintaining a fax system.

"Our partnership with Esker is founded on delivering quality and value-added solutions to our customers," said Richard Downham, VP of Business Development at FIT. "Esker's outbound cloud faxing solution proved to be a simple, cost-effective and highly productive solution that was exactly what we and all of our customers were looking for."

The start of something special

With dozens of mutual customers, including those from consumer packaged goods, manufacturing, industrial machinery, life sciences and retail, the foundation for success has been built. Esker and FIT look forward to continuing their work together in order to better serve customers' needs. "The partnership we have with Freudenberg IT is a natural fit," said Chris Denz, Business Development, Esker. "They are able to leverage the benefits of cloud fax while efficiently implementing a proven, reliable solution for their customers. Freudenberg IT is a great company with a long history of success — we're excited to be working with them and proud of what the partnership means for customers running SAP."
