

Héma-Québec Enables Electronic Faxing Out of SAP Using Esker Cloud Fax Services

Québec's blood bank agency, Héma-Québec, looks forward to simplifying the process of faxing purchase orders within its SAP environment

Madison, WI — June 9, 2014 — [Esker](#), a worldwide leader in [document process automation solutions](#), and [SAP®](#) software solution and technology partner, today announced that [Héma-Québec](#), a blood bank agency in the province of Québec, is leveraging [Esker Cloud Fax Services](#) to electronically fax purchase orders (POs) to its vendors directly from Héma-Québec's SAP application.

Prior to implementing Esker Cloud Fax Services, Héma-Québec was sending its POs via a standard on-premises fax server. This particular server was about to reach end-of-life, prompting Héma-Québec to search for a replacement solution — preferably, one that would easily integrate with their existing SAP infrastructure. After doing some research, Héma-Québec contacted Esker. “We knew we wanted a cloud solution that could work well with our SAP system,” said Alain Couture, IT Director at Héma-Québec. “Not only did Esker have the functionality we wanted, but the integration capabilities as well.”

For Héma-Québec, choosing Esker Cloud Fax Services ultimately came down to three factors:

- (1) Avoiding costly investments in additional hardware or software
- (2) Leveraging a SaaS provider with an SAP-integrated solution
- (3) Simplifying the ability to electronically fax POs from SAP without interruption

Seeing a Positive Impact

Esker Cloud Fax Services is expected to reduce Héma-Québec's operational costs and provide substantial time savings in processing outbound POs. Using Esker Cloud Fax Services, Héma-Québec will be able to fax POs instantly and electronically out of their SAP system as soon as they are ready to send. In addition, Héma-Québec's new cloud faxing capabilities is expected to create greater ease in the administration and monitoring of documents, creating a more visible and controlled document processing environment.

About Héma-Québec

Héma-Québec's mission is to efficiently provide adequate quantities of safe, optimal blood components, substitutes, human tissues and cord blood to meet the needs of all Quebecers; to provide and develop
