

Esker Announces Sponsorship at IOFM's Accounts Payable Conference & Expo

Attendees can visit Esker at Booth #319 on October 26-29 in Las Vegas, NV

Madison, WI — October 22, 2014 — [Esker](#), a worldwide leader in [document process automation solutions](#) and pioneer in [cloud computing](#), is pleased to announce its silver sponsorship and appearance at [IOFM's AP Conference & Expo](#), the largest, most comprehensive event dedicated to accounts payable. The event will be held on October 26-29 at [The Mirage Hotel & Casino](#) in Las Vegas, NV.

IOFM's AP Conference & Expo brings together AP professionals from across the country looking for practical strategies to improve efficiency and solutions to the biggest challenges faced by the industry. Attendees will also have opportunities to network with AP peers and hear case studies and informative sessions presented by representatives from top-tier organizations.

As a sponsor and exhibitor, Esker will be available at **Booth #319** to discuss how its [Accounts Payable](#) solution can work with virtually any ERP, desktop or business application to automate every phase of vendor invoice processing — from reception of the original document to the creation of an accounting book entry — using intelligent capture, electronic workflow and other advanced capabilities. Esker staff will be on-hand to answer questions and provide original content pieces to learn more. Attendees can also stop by and ask about Esker's new [Purchasing](#) application, which expedites the entire AP process.

"The IOFM's AP Conference & Expo is incredibly beneficial when it comes to the level of engagement and educational opportunities it produces, and it's exciting to be part of that," said [Steve Smith](#), U.S. Chief Operating Officer at Esker Americas. "We're at a time now where businesses of all sizes are seeking ways to make AP smarter and more strategic. For us, this is a platform to better understand the challenges folks are facing and highlight how an automated AP invoicing solution like Esker's can address them — whether its eliminating manual processing steps and offering richer analytics, or supporting [shared services](#) initiatives and [mobile approval](#) capabilities."
