

Esker Highlights Its Suite of Document Process Automation Solutions at the 2014 Microsoft Dynamics® User Conferences

Madison, WI — October 13, 2014 — [Esker](#), a worldwide leader in [document process automation solutions](#) and pioneer in [cloud computing](#), is pleased to announce it will be exhibiting at the 2014 Microsoft (MS) Dynamics® user conferences, which includes the [AXUG® Summit](#), [CRMUG® Summit](#), [GPUG® Summit](#) and [NAVUG™ Summit](#). The conferences are being held October 14-17 in St. Louis, MO.

The AXUG Summit, CRMUG Summit, GPUG Summit and NAVUG Summit are the only MS Dynamics user conferences designed and led *by users for users*. The conferences feature interactive learning at its best with attendees engaging in lively group discussions, breakout sessions and in-depth knowledge sharing — all to obtain best practice ideas that can be implemented right away.

As an exhibitor, Esker will be available at **Booth #1300** to discuss how its suite of document process automation solutions can easily work with any existing MS Dynamics platform to automate and capture all types of inbound documents, electronically deliver any outbound document, reduce operational costs, and simplify IT infrastructure. Esker staff will be on-hand to answer your questions, offer educational content, and give away pairs of its always popular flashing sunglasses.

“The Microsoft Dynamics user conferences present a golden opportunity to participate in a truly collaborative environment of learning,” said [Steve Smith](#), U.S. Chief Operating Officer at Esker Americas. “We’re excited to showcase how our [unified automation platform](#) can enhance MS Dynamics solutions in order to optimize business functions in a simple, secure and streamlined fashion.”

About Esker

Esker is a worldwide leader in document process automation solutions. Addressing all types of business processes, from accounts payable and accounts receivable to order processing and procurement, Esker cloud computing solutions enable companies to automate the reception, processing and sending of any business document with one platform. Esker helps over 80,000 companies around the world to reduce the use of paper and eliminate manual processes while improving their productivity, efficiency and environmental impact.
