

Esker Online Cloud Fax Services and Accounts Receivable Automation Now Integrated with SAP® Business ByDesign®

Madison, WI — June 26, 2013 — Esker, a worldwide leader in [document process automation solutions](#), announced today that its [Esker Cloud Fax Services](#) and [Esker Accounts Receivable](#) solutions now integrate with the SAP® Business ByDesign® solution. Through the integration, customers will be able to quickly and easily fax documents, as well as automate the sending and archiving of paper and electronic invoices, directly from SAP Business ByDesign.

Esker Cloud Fax Services

Instead of physically printing a document and faxing it from a fax machine, customers using Esker Cloud Fax Services together with SAP Business ByDesign can securely submit their documents to the worldwide network of Esker production facilities where they will be immediately faxed in just a few clicks. Esker Cloud Fax Services provides the ability to fax documents without adding hardware or software, and with no traffic or volume restrictions, while delivering the flexibility to fax either a single page or a batch of documents. Customers using the solution integrated with SAP Business ByDesign can fax sales order confirmations, customer invoices, collection letters, purchase orders and more as they are created.

The benefits of Esker Cloud Fax Services include:

- Through integration with SAP Business ByDesign, customers can fax documents directly from the SAP solution
- Real-time fax processing, tracking and reporting
- Worldwide facility network
- 95% delivery rate within one hour
- Secure and reliable infrastructure

With fixed low rates regardless of time of day and minimum transmission costs via least cost routing, Esker offers customers one of the most competitive faxing rates on the global market.

Esker Accounts Receivable

The Esker Accounts Receivable solution integrated with SAP Business ByDesign enables customers to automate

(continued)

the worldwide delivery and archiving of both paper and electronic invoices. Paper invoices are handed off to local postal services around the world in less than 24 hours and e-invoices are sent in compliance with regulations in more than 40 countries. Automating AR with Esker's software as a service (SaaS) solution significantly reduces Days Sales Outstanding (DSO) by shortening the time between invoice generation and customer payment.

Proven benefits of Esker Accounts Receivable include:

- Through integration with SAP Business ByDesign, 100% customer invoices are delivered automatically from the SAP solution
- Cost of sending invoices reduced by 40% to 80%
- Document handling time reduced up to 96%
- Customer web portal
- Customer invoices tracked in real-time
- Secure archiving

With its [Print to Mail Services](#) already integrated with SAP Business ByDesign, Esker offers the ability to physically mail documents directly from the SAP solution. Documents are printed, sorted, stuffed into envelopes, stamped, and put into the postal stream in less than 24 hours of being submitted. Mailing as a service facilitates the production, sending and tracking process for customers — delivering increased productivity, reliability and profitability.

“Our expertise in on-demand document process automation solutions is widely recognized, and we are pleased to be an SAP partner offering solutions in support of SAP Business ByDesign,” said Jean-Michel Bérard, CEO and president of the Board of Directors at Esker. “The integration of our Cloud Fax Services and Accounts Receivable automation solutions with SAP Business ByDesign will help to strengthen our presence in the SAP ecosystem and opens our solutions to a broader base of customers. Whether a customer needs to fax or mail a document, or automate AR, we can help them accelerate the exchange of critical business documents, eliminate paper, reduce costs and improve their business processes.”

SAP Business ByDesign is a fully integrated business management solution dedicated to companies in the small and midsize enterprise (SME) market as well as to subsidiaries of large enterprises running SAP solutions in their headquarters. It delivers the best of SAP software, on-demand. This solution is designed as a best-fit offering for companies that want the benefits of highly scalable, flexible business management applications without the costs of supporting the corresponding IT infrastructure. SAP Business ByDesign unifies multiple business operations and enables companies to implement preconfigured business processes in order to solve immediate problems. Accessed via a single user interface, SAP Business ByDesign delivers pre-configured software for business processes and supports managing financials, customer relationships, human resources, projects, procurement and the supply chain.

All of Esker's cloud solutions are available directly from the [SAP Store](#) — the online e-commerce channel or “e-channel” for enterprise solutions and services from SAP and its partners. SAP Store is the place for customers to gain instant access to the insight they need to make informed buying decisions. They have the ability to discover, try, purchase and deploy a wide range of solutions from SAP and the SAP partner ecosystem.

About Esker
