

Esker Shines Light on Single Platform for Paper-Free Document Processes at SAP® World Tour

Worldwide leader in document process automation will highlight value of leveraging one platform to integrate numerous document automation processes with SAP® applications.

Madison, WI and Chicago, IL – October 5, 2011 – Esker, SAP software solution partner and foremost leader in document process automation solutions, today announced its participation and Silver Sponsorship at the 2011 SAP World Tour. Esker will be sponsoring and exhibiting at the following locations: October 5 in Chicago, IL, October 20 in San Francisco, CA, and October 25 in New York, NY.

SAP World Tour is a premier event for executives, IT professionals and business managers to gain valuable insight into the latest SAP applications and best practices. Esker will be exhibiting throughout the SAP World Tour, showcasing its complete suite of solutions certified with SAP systems, including technology to automate business processes such as accounts payable, accounts receivable and sales orders.

“Today’s budget-crunched business climate has more and more companies taking a hard look at the high costs and inefficiencies of manual processes,” said Steve Smith, U.S. chief operating officer, Esker. “The Esker platform works seamlessly with SAP applications as a single, unified solution to automate multiple document processes and formats — either on-premise or in the cloud.”

Esker will have a comprehensive group of experts available to answer attendees’ questions and explain how business professionals can benefit from a single-source document automation solution. Along with expert advice, conference participants who visit the Esker exhibit will also be able to request informational white papers and discover success stories of SAP users benefitting from Esker solutions.

“The ability to coordinate the capture, workflow, delivery and storage of documents all within an existing SAP infrastructure makes for a truly simplified and efficient IT landscape,” added Smith. “Esker solutions are helping more and more companies optimize their document processes, and few events provide a better channel for us to share our knowledge than the SAP World Tour.”
