

Esker Highlights Single Platform for Integrated Invoice Automation at Financials 2012 event

Las Vegas, NV (March 13, 2012) – [Esker](#), [document process automation solutions](#) leader and an [SAP®](#) software solution partner, is a Platinum Sponsor of the SAP-SAPinsider [Financials 2012](#) conference, occurring today through March 16 at the MGM Grand Hotel & Casino in Las Vegas, Nevada.

At booth #700 in the Financials 2012 exhibit hall, Esker will showcase how its automation platform with SAP-certified integration can be leveraged to unify each piece of an organization's document process improvement efforts — from paper-free [accounts payable invoice processing](#) and 100% electronic [accounts receivable](#) invoice delivery to automated [order processing](#) and any other documents in the cash conversion cycle. Attendees will recognize the Esker booth by its puzzle theme and “All the Pieces, One Integrated Platform” message.

Steve Smith, U.S. Chief Operating Officer at Esker, will be leading a Financials 2012 breakout session titled, *How to Automate Any Invoice Process with One Integrated Platform* from 4:15-5:30 p.m. on Tuesday, March 13 in session room 308. The educational session will explore specific challenges that businesses running SAP applications face with manual AP invoices in the cash conversion cycle, and explain how [intelligent technology](#) integrates with SAP solutions to automate vendor invoice processing. Smith will cover similar issues on the AR side, while walking through customer case studies, available deployment options, on-premise software and phased implementation approaches, and how one solution can seamlessly automate any invoice process.

“The pressure to stretch resources and increase efficiency has more and more businesses looking to automation,” said Smith. “At the Financials 2012 conference, we're eager to highlight how our [best-of-suite solution](#) simplifies the IT landscape by working together with SAP software to automate virtually any process that runs on paper — and doing it all from one integrated platform.”

In addition to advice from industry experts, conference participants visiting the Esker booth can also request informational white papers, learn about success stories of customers using Esker solutions, and pick up a pair of our crowd-favorite flashing sunglasses to enhance the flair and excitement of Las Vegas. “It's always an exciting event,” added Smith. “We hope to add our own unique element of fun and excitement by sharing our knowledge with SAP professionals and all the conference participants.”
