

A Match Made in the Cloud: Esker Announces Partnership with Taulia for AP Automation Offering

Madison, WI — July 18, 2013 — [Esker](#), a worldwide leader in [document process automation solutions](#) and [SAP®](#) software solution and technology partner, today announced its partnership with [Taulia Inc.](#), the only SAP-certified SaaS platform for Dynamic Discounting and e-invoicing.

As the first SaaS solution for Accounts Payable (AP) processes fully integrated with SAP solutions, the [Esker on Demand AP automation](#) solution combines intelligent capture, “touchless” processing and electronic workflow capabilities to improve oversight and end-to-end control of the AP process. In turn, Taulia’s [Business Exchange](#) helps organizations generate massive savings, strengthen supplier relationships and reinvest into their supply chain through innovative Dynamic Discounting and supplier self-services.

“Quick access to information through self-service portals is becoming more important in the business world today, which is why we formed this partnership,” said Steve Smith, U.S. Chief Operating Officer at Esker. “Together, we’re allowing customers and suppliers to optimize vendor invoice processing with more visibility, efficiency and control, while maximizing supplier discounts using cloud technology.”

“We are looking forward to leveraging this partnership to deliver a complete automation solution, offering full supplier visibility into invoice approvals as well as the ability to get paid faster in exchange for early payment discounts,” said Bertram Meyer, CEO of Taulia. “Our customers can greatly benefit from our aligned strategies to solve major automation challenges, simplify workflow processes and reduce expenses.”

Co-presentations at upcoming ASUG Chapter Meetings

As sponsors of two upcoming [ASUG](#) (Americas’ SAP Users’ Group) Chapter Meetings in July, Esker and Taulia will team up to demonstrate the benefits of cloud-based invoicing by referencing real-world examples of leading organizations who have moved from legacy invoicing and manual workflow systems to full AP automation in the cloud.
