Esker Appoints Breanna Baker as Global Chief Sales Officer

Baker will lead Esker's global sales organization and support the company's next phase of growth

LYON, France, and MIDDLETON, Wis. — September 2, 2026 — [Esker](#), the leading AI Automation Suite for the Office of the CFO, announced today the appointment of [Breanna Baker](#) as Global Chief Sales Officer. Reporting to Emmanuel Olivier, Deputy CEO and Chief Revenue Officer, Baker will lead Esker's global sales organization and work closely with teams to strengthen customer relationships, accelerate partner growth, and expand Esker's presence in key markets.

Baker brings more than 20 years of experience in enterprise software and technology sales. Throughout her career, she has developed scalable go-to-market (GTM) strategies and helped customers modernize critical finance operations, all while fostering high-performing teams.

At Esker, Baker will strengthen GTM execution across North America, Europe, and Asia-Pacific and align growth strategies with Esker's AI capabilities across its Office of the CFO suite.

"What drew me to Esker was the combination of a cutting-edge product portfolio, strong leadership team, and people-first culture," said Baker. "As Global Chief Sales Officer, I look forward to building on the foundation already in place and helping our teams work together even more effectively to deliver exceptional value for customers."

"Breanna's customer-first mindset and ability to build collaborative teams make her an excellent fit for Esker," said Emmanuel Olivier, Deputy CEO and Chief Revenue Officer at Esker. "Her leadership and expertise will be instrumental in helping more organizations realize the value of our platform as we accelerate our global growth."

Prior to joining Esker, Baker served as Vice President of Sales, North America, at Medius, where she led teams helping organizations automate and transform their finance processes. She previously held sales and leadership roles at SAP Concur, developing deep expertise in finance technology and enterprise transformation.
