Esker Named a Leader in First-Ever Gartner® Magic Quadrant™ for Accounts Payable Applications

LYON, France, and MIDDLETON, Wis. — March 24, 2025 — Esker, the global authority in AI-powered business solutions for the Office of the CFO, today announced that it has been named a Leader in the 2025 Gartner Magic Quadrant for Accounts Payable Applications.

The Gartner report evaluated 14 vendors based on their Ability to Execute and Completeness of Vision, positioning Esker as a Leader, which it believes is because of its strong performance, cutting-edge technology and customer-centric approach.

Esker Accounts Payable streamlines invoice processing by eliminating manual inefficiencies with AI-driven data capture, automated processing and electronic workflows. Ensuring e-invoicing compliance, it simplifies cashflow management and unlocks new revenue opportunities, delivering a smarter, more efficient AP experience. It is Esker’s view that this recognition reflects its dedication to robust AI integration, advanced dashboards and reporting capabilities, and commitment to global compliance and support.

“We are honored to be recognized as a Leader in the inaugural Accounts Payable Application Magic Quadrant,” said Catherine Dupuy-Holdich, S2P Product Manager at Esker. “In our opinion, Esker’s AI-driven capabilities have revolutionized the way businesses manage their accounts payable processes. For our customers, we feel we offer greater efficiency, improved accuracy and the ability to focus on strategic initiatives rather than manual tasks.”

Esker is the only company recognized in three Magic Quadrant reports: Gartner Magic Quadrant for Source-to-Pay Suites, Gartner Magic Quadrant for Invoice-to-Cash Applications and this first-ever Gartner Magic Quadrant for Accounts Payable Applications. From Esker’s perspective, it is a trusted partner for businesses seeking to automate and optimize their end-to-end finance and procurement processes.
