

Press Release

Dan Reeve Appointed to Esker's Executive Committee

Sydney, Australia — December 17, 2024 — [Esker](#), the global authority in [AI-powered business solutions](#) for the Office of the CFO, today announced the appointment of Dan Reeve, Vice President of Sales North America, to Esker's Executive Committee, effective January 1, 2025.

Reeve has successfully managed a team of sales directors who have helped facilitate over 40% of the company's revenue for the past 10 years. Under his leadership, North America has consistently experienced strong growth.

"This appointment is a testament to Dan's exceptional work, strong leadership, and significant contributions to the growth of our business and solutions," said Jean-Michel Bérard, CEO at Esker. "His expertise in shaping Esker's sales strategy, dedication to delivering outstanding customer service and ability to foster lasting customer relationships make him an invaluable asset to our Committee."

Reeve joined Esker in 1999 in the U.K. where he was responsible for business development in the Benelux and Scandinavia regions. Before advancing to his current position, he played a key role in the company's U.S. expansion, including successfully developing the Midwest and Pacific Northwest markets, and establishing Esker's Denver office in 2017.

He earned a degree in Economic Development from the University of Derby, England. Following his graduation, he completed the Courts Furnishers Graduate Managerial Program, where he discovered his passion for sales and gained a deep appreciation for the value of exceptional customer service.

"I'm delighted and grateful for this opportunity. We are seeing tremendous interest from customers looking to automate business processes in support of the Office of the CFO," said Dan Reeve, VP of Sales North America at Esker. "I'm looking forward to using this opportunity to share the valuable insights that business leaders, sales leaders and reps share with me to better serve our customers and help drive Esker's continued growth."

About Esker
